Under Diplommiddagen höll Alberto Garcia ett mycket uppskattat tal till gruppen. Ni kan läsa talet nedan:

*"I have to say that I was a little skeptical when I started Step 4 but still very interested in seeing what I could get out of the course and excited for the experience. Now that is over I can say that there was 2 things that I absolutely loved from this course:*

*First was the philosophy assignment where we really had to reflect in how we do things as coaches and why.*

*Second was the great humans involved in this course. Someone said the other day that this was a great group because we all are different but we get along with each other no problem and I agree 100%, and it isn't that common that I agree with a Swedish guy that easy!!! ;)*

*As a good Spaniard, after the crisis we had in the country I am pretty poor but I am very lucky to be in this course cause I am richer now after I spent this time with all of you guys because:*

*I got charisma from Jim.*

*I got perseverance from Olle.*

*I got wisdom from Vischer.*

*I got respect and joy from Micke.*

*I got enthusiasm from Peter.*

*I got passion from Srdjan.*

*I got game IQ from Adnan.*

*I got management skills from McCann.*

*I got the "basketball freak" from Kevin Gaines.*

*I got the "I don't care what people think of me" from Jeremy.*

*I got the accountability from T.J.*

*I got ambition from Robin.*

*I got basketball obsession from Kevin Taylor.*

*The bounding within the members of this group, putting differences on a side and willing to listen and cooperate in order to learn from each other should serve as an example for all of Swedish Basketball.*

*I will tell you now not goodbye but see you soon on the basketball court and thank you for this experience."*
